Dear Patients and Friends,

I would like to thank each of you for placing your confidence in my medical practice. It has been an honor to care for you over the past 22 years. I appreciate the trust you have placed in me and value the relationships we have built. It is truly a pleasure and privilege to come to work each and every day.

There are a variety of services that my office provides that go above and beyond what we are reimbursed for by health insurance companies, which are independent of actual medical care. These include patient access to me 24-hours a day, 7-days a week via a call service, providing documentation to employers and government agencies, expedited copies of medical files, electronic prescribing of medications, the ability to make Telehealth appointments, assisting patients with insurance claims, and others. These are all important, but they come with additional administrative costs and many extra hours of work.

Therefore, starting May 1, 2023, all of my patients will have a \$250 Administrative Services fee per year. While I understand that this fee may be a burden for some, it is necessary in order for me and my office to continue to deliver the caliber of care that I would like to provide and that you deserve.

For those who decide to remain with me, I am grateful for your trust and look forward to spending more time together. For those who choose to leave my care, I am sad to see you go, but want to make the transition as smooth as possible, and will help facilitate the transfer of your records.

I cherish the relationship I have with each of you, and look forward to continue to provide you the best possible obstetrical and gynecological care.

Warmly,  
Dr. Taaly Silberstein
